

User Guide

- Water Bladder Tank can be application on many different place. This document is introduce how to use our water bladder tank.

1.Choose a horizontal and smooth ground.

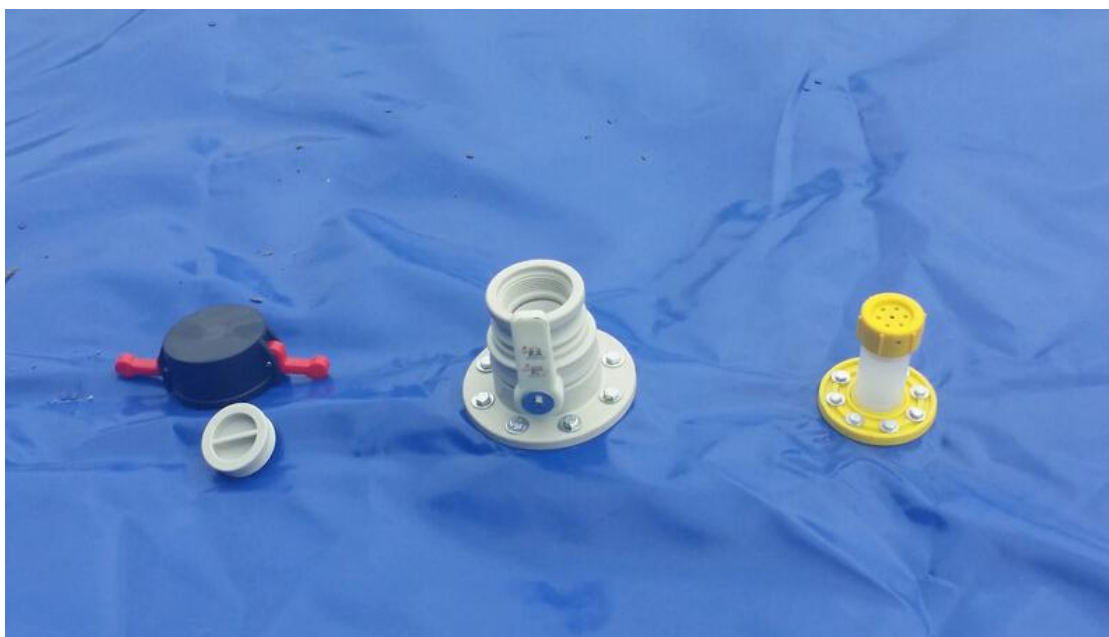

2.Put the ground sheet (it is optional accessories, usually we recommend customers can find old blanket,mat, plastic sheet ,etc in their sides, it is just an solution effect)

3. Put the tank on the Ground Sheet.

4. Check the Valve and Close the Outlet Valve.

5. Open the Inlet Valve ,and Connect the their Pump, and then Load the Water. (Connect the Tap directly is ok also.)

6. When the Tank is Full, Close the Inlet Valve

7. When you want to use Water, Open the Outlet Valve

8. When the Tank is Empty, You can Fold the Tank into a Carton.
